- Over 30 OPD Clinics (Speciality & Superspeciality.)
- Diagnostic & Day Care
- Dedicated Preventive Health Check-ups
- Dedicated Cosmetic Centre

IPD Services

- Bed Strength-200 \ 400
- 10 Operating Theatres
- 80 Critical Care Beds

RVHSPCT 's Riddhivinayak College of Nursing

Introduction

The Riddhi Vinayak College of Nursing is an affiliated nursing educational institute to the Maharashtra University of Health Sciences, Nashik; and is recognised by the Indian Nursing Council, New Delhi as well as the Maharashtra State Nursing Council, with due permission from the Government of Maharashtra regarding its purpose of providing and promoting Nursing Education as a field since 2021.

The proposed Nursing College strives to impart quality nursing education to the students from India and abroad; in turn improving the quality of health care for the society. The health needs of India range from basic requirements like food, water, sanitation and shelter, to the need for the latest, most sophisticated medical and nursing care provided by intermediate and tertiary-level hospitals. Nurses are needed at each of the different levels in health care. Universal nursing education programmes and training sessions equip a nurse with the ability to shoulder responsibility effectively, in turn, helping the community's health needs to be met.

A graduate nurse, qualified as B.Sc. (N) at Riddhi Vinayak College of Nursing is a partner (health care team member) who has been trained as a professional nurse through the University affiliated nursing education programme. Riddhi Vinayak College of Nursing graduates are recognised by the Indian Nursing Council and work independently in the hospital and community.

The preparation of graduate nurses helps in generating a nursing work force which is capable of catering to the community health needs of the country. They are also equipped to serve the less privileged and socially, as well as economically, deprived sections of the society in urban and rural settings. The Riddhi Vinayak College of Nursing B.Sc. graduate nurses are also expected to deal with the problems of high maternal and infant mortality and morbidity, HIV-AIDS and the rise of infectious and non infectious health problems. Riddhivinayak College of Nursing has equipped itself with adequate educational resources and prepare nurses to work efficiently within the current health scenario in India and across the world

To keep up with the changing health and nursing demands of the country, Riddhi Vinayak College of Nursing is doing its part to help to meet the tremendous nursing shortage in the country. The level of education, the depth of curriculum and the exceptional practical experience at Riddhi Vinayak College of Nursing adds to the standard of healthcare across the industry through our well-equipped nursing graduates. Through this specialist training facility, the State of Maharashtra can look forward to being a pioneer and leader in the nursing education field in India. Riddhi Vinayak College of Nursing is moving towards quality education by conducting various continuing education programmes like open forums and conferences as an integral Part of Nursing Education.

Philosophy

The philosophy of Riddhi Vinayak College of Nursing is at par with the Indian Nursing Council & MUHS. It is also well-integrated into the philosophy of Riddhi Vinayak Multispeciality Hospital & Medical Research Institute.

The Riddhi Vinayak College of Nursing believes that nursing education is a combination of the art and science of preparing, guiding and producing future nurses. These nurses will function effectively and efficiently to serve the healthcare needs of the society, providing the highest level of service quality. Further, Riddhi Vinayak College of Nursing believes that nursing contributes to the overall health services in vital and significant ways, as it is an integral part of the healthcare delivery system.

Riddhi Vinayak College of Nursing focuses on National Health Goals and is committed to participating in the implementation of the National Health Policy and Programmes.

Riddhi Vinayak College of Nursing believes that the nursing programmes which are prescribed by INC at the B.Sc. Nursing level are a broad-based education within an academic frame work. This builds upon the skills and competency acquired at the diploma level (Registered Nurse & Registered Midwife).

At the end of the B.Sc. Nursing programme, the graduate is a competent Nurse & Midwife with the ability to provide comprehensive healthcare to the client in the hospital and to the community at large.

Riddhi Vinayak College of Nursing further believes that an educational climate which encourages interaction between the teacher and student is essential for individual and professional growth and development. Possessing the responsibility of the professional role model, the teacher/educator is responsible for creating a learning environment that enables students to acquire inquiry-driven, self-directed learning that will instill an attitude of lifelong learning; in turn leading to the overall growth of the nursing profession.

Mission

Preparing caring, concerned, compassionate, competent professional nurses capable of rendering the highest level of quality care, who make contributions in education and research in the field of nursing. Providing B.Sc. Nursing as well as other nursing education, including continuing education programmes like Post Basic B.Sc. and M.Sc. Nursing at the postgraduate level. (For Future Plan)

The Riddhi Vinayak College of Nursing plans to establish itself as one of the country's premier healthcare initiatives in the private sector, in its initial commissioning and long term development.

The said organisation has a defined mission for its Nursing College as follows:

- o To Teach
- o To Learn
- o To Serve
- o To Foster Growth
- o To innovatively contribute to the profession of nursing

Vision

Riddhi Vinayak College of Nursing will be recognised for its commitment to the nursing profession through nursing education, leadership, research and contributions to continuing education. Nurses will be provided sound basic nursing education, while being nurtured and encouraged to believe in themselves, instilling the value of serving the society.

Aim

Riddhi Vinayak College of Nursing shoulders the responsibility of preparing a professionally competent Nurse and Midwife at the basic level, providing promotive, preventive, and restorative services, where nurses will be capable of making independent decisions in order to prepare and protect the rights of clients, to facilitate individual and groups in pursuit of their health, and to function in the hospital and in the community by performing the role of teacher, manager, supervisor and researcher.

Nursing Programmes at Riddhi Vinayak College of Nursing

B.Sc. Nursing
